24/7 FUMIGATION & Dosage Monitoring & Intruder Deterrent and Detection

Developed by Sandwich Isle Pest Solutions...

FumeGuard is a fumigant monitoring and portable intrusion alarm system for monitoring the status of fumigation and for deterring and detecting intruders.

To assure every fumigation is 100% effective, Sandwich Isle has been monitoring fumigant dosage during the fumigation process for many years. Recently, in Hawaii there have been an increasing number of reports of break ins during the fumigation process.

In response to this, Sandwich Isle identified a need to provide an effective deterrent and early warning alarm system to provide our clients with a greater peace of mind. This FumeGuard Program was custom designed to not only provide an effective crime deterrent and early warning alarm system, but also includes state of the art, gas analyzing instrumentation to assure that every fumigation is 100% effective.

We partnered with a leading developer of portable alarm systems to offer our clients an effective, economical wireless intrusion alarm system for use during the fumigation process.

Key Features of the FumeGuard Program:

- ✓ **Fumiscope Gas Analysis to assure 100% effective fumigation**
 - Remote Data Acquisition (RDA) Report available for additional fee

- ✓ **Motion activated early warning alarm system**
 - Once alarm is triggered
 - Intruder Detection
 - Heat and motion is detected anywhere within 35 feet of unit
 - Automatic instant wireless transmission
Instantly contacts alarm dispatch and five supervisors via cell phones/text
 - Safety Strobe light is activated
 - 115 db Siren sounds

- ✓ **No phone lines to cut**
 - Even if the unit is disconnected from the electrical outlet it will continue to transmit cell signals, sound the siren and activate strobe

Important

*The FumeGuard Program will assure a 100% effective fumigation, but does not guarantee against criminal activity during the fumigation procedure. FumeGuard is primarily a fumigation monitoring system and crime deterrent, when used properly it should alert criminals to leave the property.
